SNCNA

SUREN NETWORK CERTIFIED NETWORK ASSOCIATE

**PHYSICAL CONNECTION
TEST**

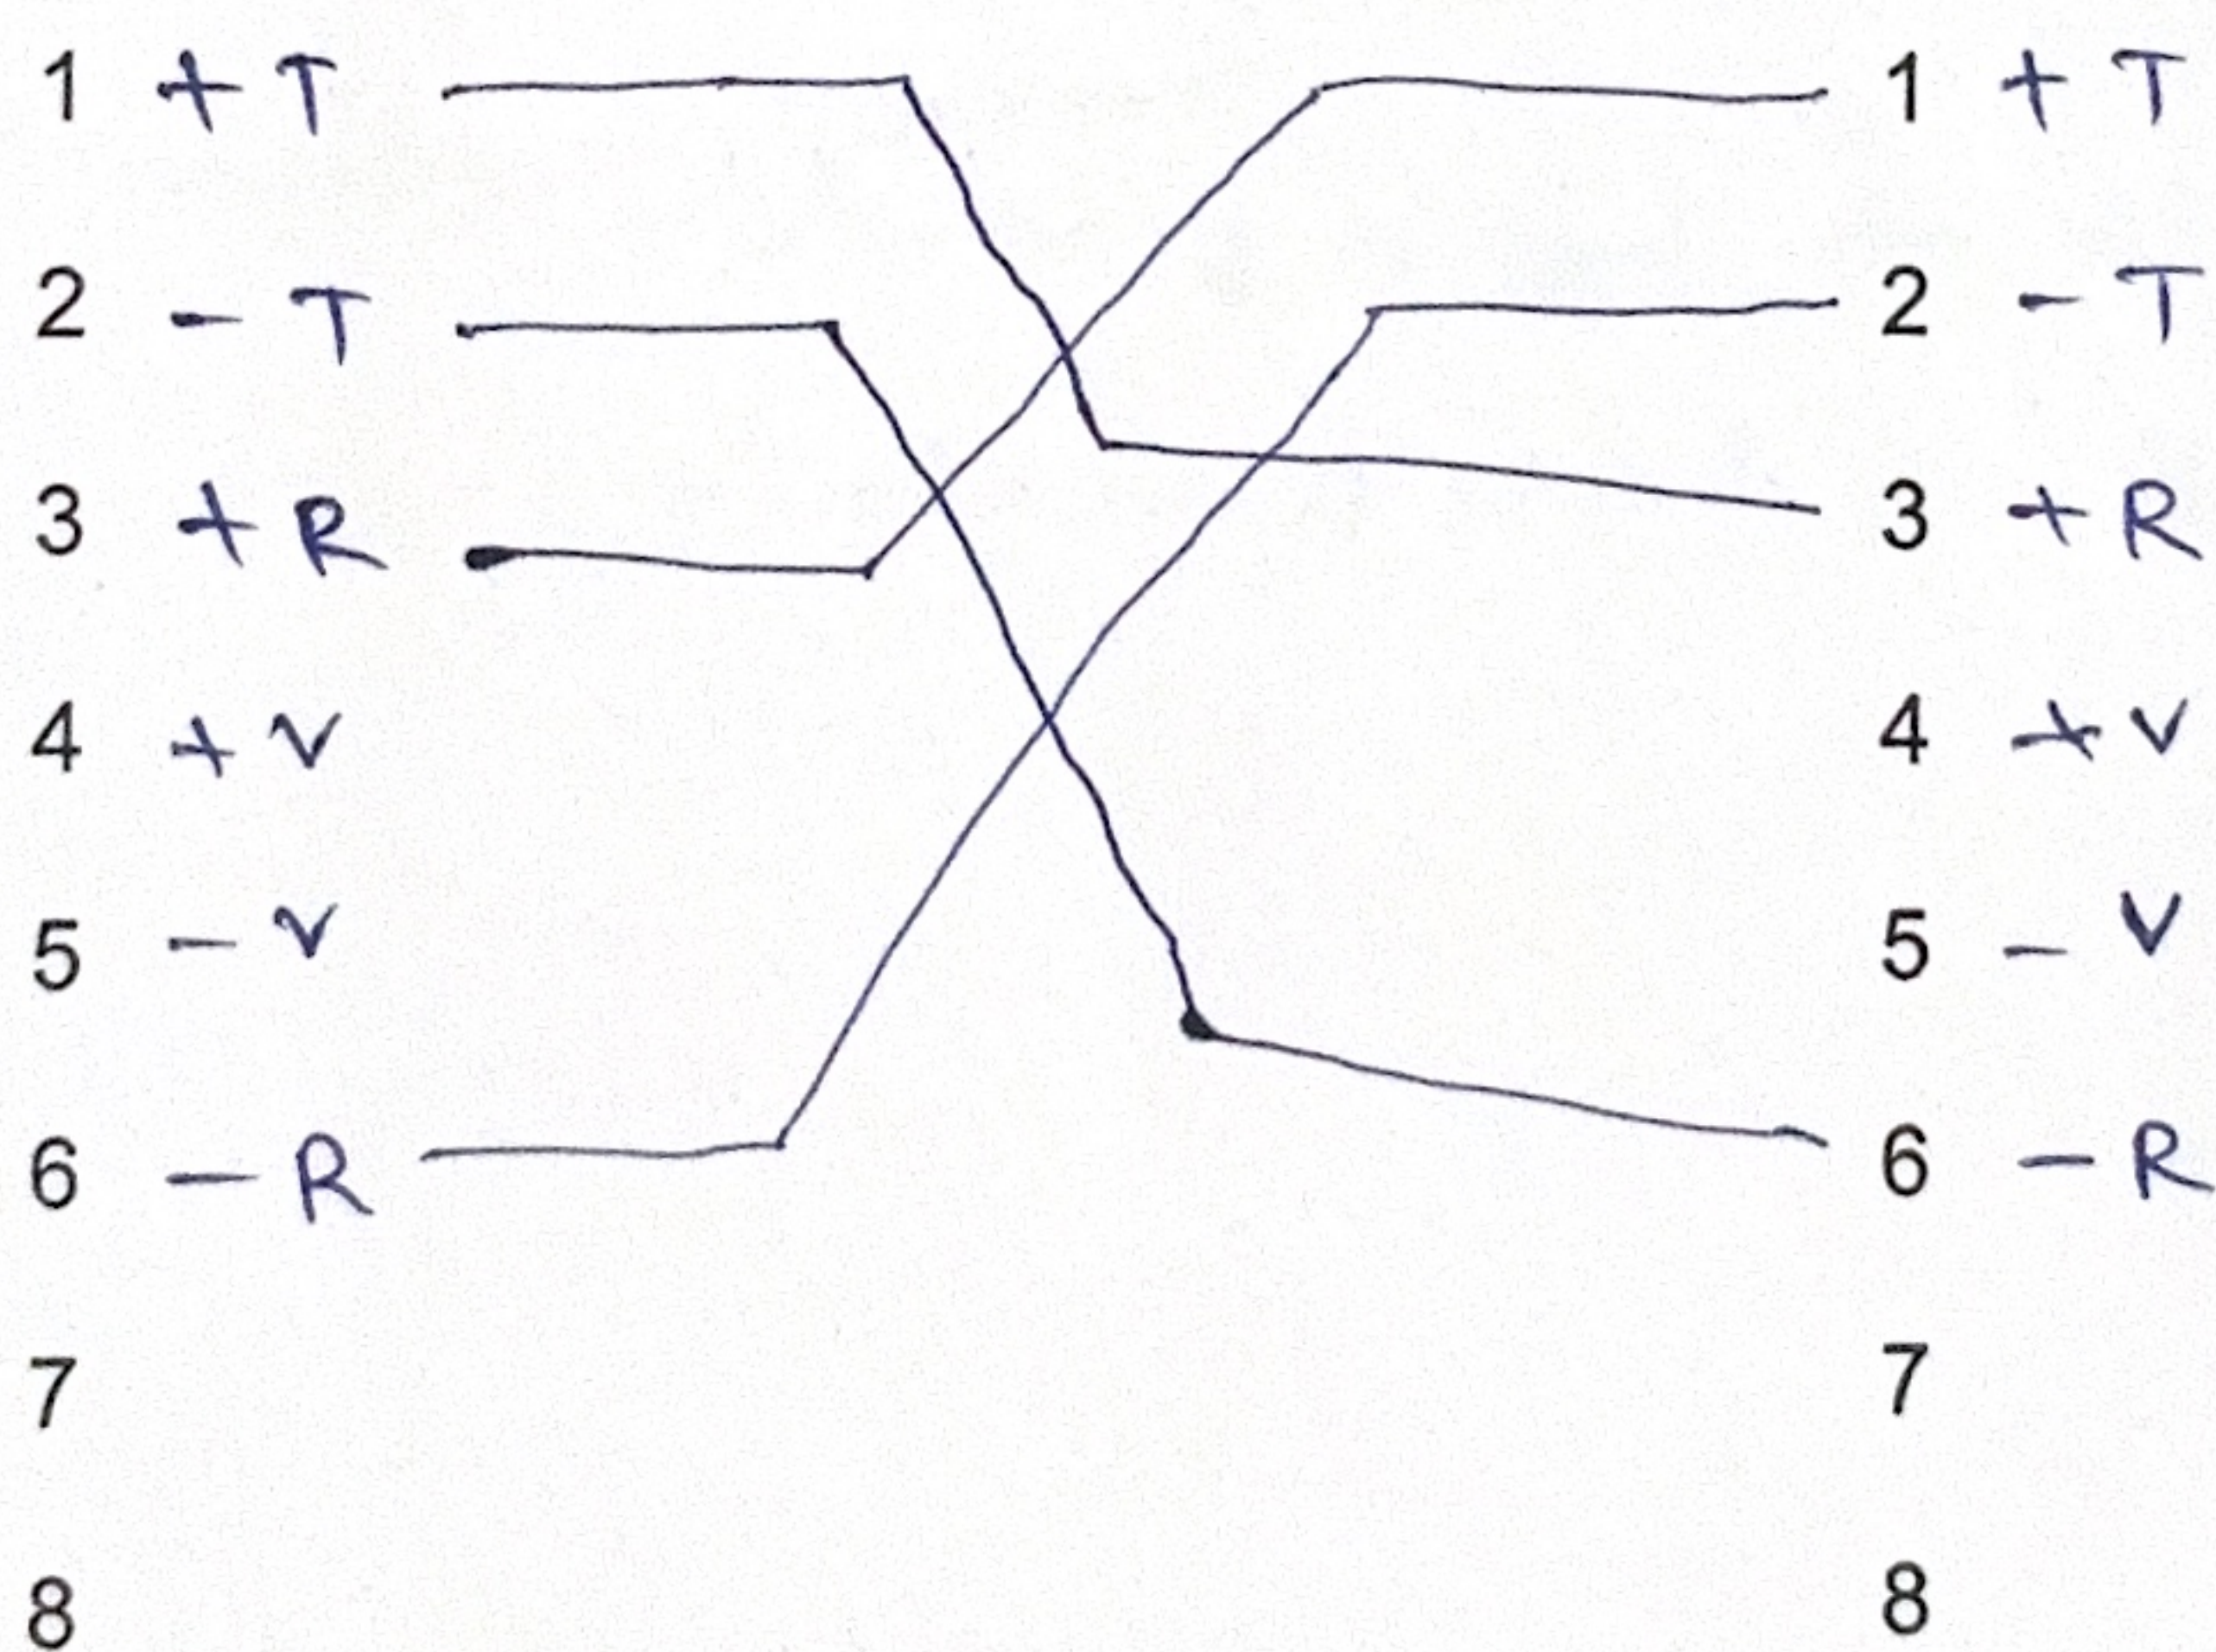

1, Types of mediums ?

- Radio frequency
- Electrical signal
- Light signal

2, Write down switch 8-pins ?

- 1 + R
- 2 - R
- 3 + T
- 4 + V
- 5 - V
- 6 - T
- 7 x
- 8 x

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

- Stands for (Automatic medium Dependent Interface Crossover)
- ~~Basically ethernet~~ Auto MDIX is a networking feature that allow Ethernet ports to automatically detect the type of cable connected (Straight-through (or) crossover) and configure the (Tx) & Receive (Rx) pairs accordingly

5, Explain POE injector ?

- A poe injector stands for (power over Ethernet injector)
- Is a networking device that adds electrical power to a standard Ethernet cable
- So a network device can receive both data and power through the same cable [Poe Injector = Data + Power → one Ethernet cable]

6, Explain POE switch ?

- Stands for [power over Ethernet]
- is a network switch
- that provides both data connectivity and electrical power to connected devices through a single Ethernet cable

7, Explain types of nic & function ?

Types → wired
→ wireless

Function → ^{convert} binary signal to electrical
— electrical signal to binary
